

PRODUCT SPECIFICATION

Product Description	Potassium Hydroxide Solution in Ethanol, 0.5N
Grade	Reagent
Product Code	EKOH(0.5)111-1.0
Synonyms	Ethanolic Potassium Hydroxide Solution, 0.5N
CAS Number	1310-58-3 (Potassium Hydroxide), 64-17-51 (Ethanol)

[illegible]

Notes: 1) The concentration of this volumetric solution decreases over time of storage. This is not a quality issue of this product, it is a property of this solution. Therefore, we strongly recommend to perform a titer determination after opening the originally sealed bottle and every working day.
